HOW TO SOLVE

Each grid is filled with repeated numbers. Shade cells so every unshaded row and column has no repeated number, then follow the extra rules below.

- Shade cells so no number appears twice in any unshaded row or column.
- No two shaded cells may touch edge-to-edge (touching corners is fine).
- Every unshaded cell must connect into one single region.
- In each row and column, at least one of every repeated number stays unshaded.
- Tap a puzzle on the Index to jump to it. Tap Answers to check, then Index to go back.
