

Free Number Snake for reMarkable

HOW TO SOLVE

Fill every blank cell with a number so that 1 through 64 form one continuous path through the grid.

- Consecutive numbers must sit in cells that touch edge-to-edge (up, down, left, or right — never diagonally).
- Each number from 1 to 64 is used exactly once.
- The starting clues shown on the grid are fixed and cannot move.
- Tap a puzzle on the Index to jump to it. Tap Answers to check, then Index to go back.
